

The location is on the lake of Bracciano, near Rome, Italy.

A map of the area

Weather:

Being so close to the Tyrrhenian coast (Km.20), from may till september the lake enjoys, as well as the people who sails on it, of a nice thermal breeze system. The wind usually comes at 2 o'clock, around 5-7 m/sec. So the Lake is often willing to give us a nice wind to sail, warm water, and extremely nice sight.
